

Audubon ARIZONA
Enchanted Trail
October 21 & 22, 2016

Enchanted Trail is Audubon Arizona's annual fall festival. The event is intended to give visitors a greater appreciation for Arizona's nocturnal (night-active) wildlife through educational activities, live wildlife, and crafts. **This year's focal animals are the Coyote, the Pallid Bat, and the Western Screech-Owl.**

Each young participant will be given an **Enchanted Trail Passport** that will assign them one of the three focal animals (each animal corresponds to a sticker color). There are three questions in the passports - by answering them, participants will learn which animal they are!

Critter Café:

After learning about where their mystery animal lives during their trip through the Enchanted Trail Bat Cave, participants will find themselves at the Critter Café. Here, they will learn about **what their mystery animal eats**.

- At the Critter Café table, visitors will find three framed clues coupled with three plates of food. Each plate and framed clue will be marked with the same color as the stickers on participants passport.
- Each plate displays the favored diet of one of the event's three focal animals.
 - **Western Screech Owls eat** mostly small rodents like mice and rats and will also eat some insects, worms, crayfish, and bats.
 - **Pallid Bats eat** large, usually ground-dwelling bugs like scorpions, centipedes, grasshoppers and beetles.
 - **Coyotes eat** almost anything - small mammals, birds, snakes, mesquite beans and more
- Encourage participants to circle the correct answer for **question number 2** in their passport.
- Send visitors towards station three: Mystery Movement, where they will learn about how their mystery animal moves.

THANK YOU for volunteering at this year's Enchanted Trail!
