

Audubon Arizona's *Desert Dwellers*

Camp Partnership

SUMMER 2019

Active... Engaging... Educational... The perfect addition to your camp!

Needing to burn campers' energy while providing valuable STEM education? Audubon Arizona will come to YOU with customized programming and takeaways to captivate and inspire!

Desert Dwellers was developed by experienced Audubon Naturalists and is a distillation of the best and most effective activities to bring the wonders of Arizona's wildlife directly to your classroom. The program can be readily tailored for a wide range of ages, abilities, group sizes, and shortened for time constraints.

2 HOUR PROGRAM

- Migration Mishaps Game
 - Campers create their own adventure as they act out the life and trials of a migrating bird.
- Birding by Sound
 - Campers experience unique bird bio-facts and special techniques to identify birds by their songs.

COST

\$185 for the 1st presentation

\$100 for any subsequent presentations booked

BOOKING INFORMATION

Contact: Corey Lycopulus, corey.lycopulus@audubon.org

602-468-6470 ext. 125

WHAT STUDENTS SAY:

"My favorite part was when we were looking for a nest, a cactus, and a feather, and it was very fun!"

– Alex A., 1st grade, Vista College Preparatory

"I love to learn how animals and plants solve problems and I like to think about how people might solve some of their problems the same way. That's why I love nature and the outdoors. One day I hope to have a job working with nature and conservation and I believe that Audubon will help me reach that goal!"

– Caden L., 6th grade, Wigwam Creek Middle School
